Hold the presses!!! This is the template that any aspiring artist should follow when recording an album. God I love this CD. This is one of the very best CD's I have ever heard! It is full of character, unbelievably well written songs, and punch. Did I say how much I love this CD?

Scott Miller has been around for a few years trying to break on through as an artist. Staff writer of the Americana Gazette Jim Smith has been touting Millers musicianship for a long time to me and anyone who would listen. This is my first exposure to Miller and his music and it ROCKS!!! There is not a bad song on this CD. Miller weaves in and out of Americana, Blues, and good old Rock & Roll to make this a joy to listen to.

Favorite cuts from this CD are Cheap ain't Cheap, Sin in Indiana, Heart in Harm's Way, Claire Marie, and Tom T. Hall's I Can't Dance. Each song on this CD has its own voice. No cloning going on here. Backed by his ace band the Commonwealth Miller shines on every cut. Recorded in various studios in Nashville this is a fine example of what the future holds for Americana Music.

Buy this CD! Again Buy this CD! You won't be disappointed. Check out Miller's web site at WWW.the <<http://www.the/>> scottmiller.com and his myspace page at myspace.com/the-scottmiller.
